

Micro-needling After Treatment Instructions

Immediate results

Following your Cosmopen treatment, you will feel like you have a mild sunburn, and some redness.

Healing

Swelling and redness is normal and will subside within 48 hours. Your skin may feel drier than usual.

Cleaning

Use a gentle cleanser and tepid water to clean the area treated and gently dry the treated skin. Always make sure that your hands are clean when touching the treated area.

Hydrating/Stimulating

It is recommended to use a daily moisturizer, hyaluronic acid or collagen stimulating peptides serum to help healing the skin and reduce irritation.

Protecting

Use sun protection SPF 30 or higher.

Precautions

Do not take any inflammatory medicines for at least 2 weeks post treatment. Avoid sun exposure at least 48 hours after your treatment, if possible 1 or 2 weeks. We recommend using make up 24 hours after the procedure. Afterward, do not apply any makeup with a makeup brush, especially if it is not clean. Avoid the use of moisturizers or lotions containing active ingredients such as retinol, glycolic acids, perfumes and colors. Do not go swimming for at least 24 hours post-treatment. No exercising for the first 24 hours post treatment. Sweating and gym environments are harmful, prevalent with bacteria, and may cause adverse reactions.
